SUMMARY

I am a Software Engineering graduate with experience in developing web and backend applications using ASP.NET Core and RESTful APIs. I work with Flutter and Dart on enterprise applications, focusing on backend-driven workflows and API integration. I am a solution-oriented, fast-learning team player with hands-on project experience.

EDUCATION

Patika+ 6-month Fullstack Web Development Bootcamp **Graduation year: 2025**

- Completed a Backend Development Bootcamp focusing on .NET, C#, and RESTful API development.
- Developed backend-focused applications through project-based learning. (GitHub Project Link)

Kırklareli University, Kırklareli, Turkey **Graduation year: 2025**

- Bachelor of Science in Software Engineering, GPA: 3.34/4.0.

PROFESSIONAL EXPERIENCE

K12 Bilisim, Izmir, Turkey **September 2025 – April 2026**

Software Developer (Flutter)

- Developed features for CRM and LMS applications using Flutter and Dart.
- Managed state management, navigation, and application workflows using GetX.
- Integrated RESTful APIs into Flutter-based applications..
- Fixed functional and visual issues and implemented new features and modules in existing systems.

PsikoYon, Remote **March 2025- July 2025**

Software Developer (Volunteer)

- Implemented purchase-related user flows in an MVC-based application, including conditional navigation based on user access.
- Worked on authentication-related features using token-based (JWT) authorization and fixed login/register issues.

Bridge Bilişim, Istanbul,Turkey **August 2024-September 2024**

Software Development Intern

- Worked on the user interface (UI) of a mobile application for airport baggage tracking
- Reviewed the existing UI design, provided improvement suggestions, and implemented interface enhancements

Yaşar Bilgi A.Ş., Izmir,Turkey **July 2024-August 2024**

Software Development Intern

- Contributed to the development of a mobile application for tracking company vehicles' duty hours and maintenance schedules
- Managed databases using Firebase and SQL, ensuring data optimization
- Designed a user-friendly interface to optimize form inputs and filtering operations (GitHub Project Link)

SKILLS

- **Mobile:** Flutter, Dart
- **Backend:** ASP.NET Core, REST APIs, JWT
- **Databases:** SQL, Firebase, MongoDB
- **Languages:** English(Intermediate)
